SYSTEM PERFORMANCE MANAGER - MONITOR

Powered by ECOPLANT

Ingersoll Rand System Performance Manager - Monitor

Maximise efficiency, reduce costs, and stay ahead of maintenance needs with Ingersoll Rand System Performance Manager – a powerful tool that puts cutting-edge technology to work for you. The Monitor tier helps you implement smart maintenance strategies for peak equipment performance and long-term savings.

At Ingersoll Rand, we are dedicated to ensuring that our customers' operations are efficient and uninterrupted. Our CARE services program is the foundation of this promise, providing proactive maintenance, expedited service, and comprehensive support designed to maintain the health and reliability of your equipment at every stage of its lifecycle.

Building on the strength of our CARE program, we're excited to introduce the Ingersoll Rand System Performance Manager - Monitor – an intelligent system offering that represents the next level in operational management. This innovative monitoring software improves the performance of your equipment and informs our technicians of a potential risk immediately so we can proactively correct the issue.

By utilising calculated operating data, it delivers expert recommendations for system adjustments, guiding customers towards optimal maintenance strategies for their compressors.

Together, the CARE services program and the Monitor tier of System Performance Manager form a powerful combination, ensuring your operations are not only monitored for but also continuously made efficient. It's about providing peace of mind, reducing total cost of ownership, and fostering sustainability – all through the intelligent integration of our industry-leading services and technologies.

Benefits

Proactive Insights

With early alarms and warnings, System Performance Manager delivers actionable insights before issues escalate. This proactive approach complements the OEM alerts you trust, ensuring that you're always one step ahead.

Unified Data Visualisation

All your equipment data is now visualised in one place, offering a comprehensive at-a-glance overview. This integration means fewer maintenance trips and more efficient visits, allowing for streamlined operations.

Efficient Troubleshooting

The intelligent analysis of both compressor and system data enables quick and effective troubleshooting. Paired with our CARE program's support, resolving issues becomes simpler and faster, minimising downtime.

Sustainability Tracking

As energy efficiency becomes increasingly crucial, System Performance Manager provides energy savings and CO_2 reports. These tools help you track performance against your sustainability goals, reinforcing the CARE program's commitment to not just maintaining but improving your operations.

CARE Program Features and Enhanced Benefits

Parts CARE™

PartsCARE™ entitles you to receive genuine OEM parts at preferred pricing for your routine air compressor maintenance requirements. Oil analysis, diagnostics, and air compressor repair service are available as needed. This plan includes either automated shipments or reminders to ensure you have met your requirements to keep your compressor operating as efficiently as possible.

- **OEM Parts included**
- **Transparent Pricing:** Avoid unexpected price hikes with our consistent and reliable pricing.
- **Simplified Process:** Say goodbye to the paperwork and record-keeping often required by OEMs so it simplifies your experience.
- **Flexible terms and conditions**

Planned CARE™

PlannedCARE provides predictable, on-time planned air compressor maintenance services, including diagnostics to catch potential problems, before they result in larger headaches.

PlannedCARE provides customers with all the benefits of PartsCARE, plus:

- **Proactive Planned Maintenance:** Benefit from real-time data analytics to replace parts only when necessary, reducing downtime and eliminating guesswork.
- **Your Experts in Compressed Air:** Factory Certified technicians are ready to keep your machine up and running, allowing you to focus on your core business.

Package CARE™

PackageCARE™ provides the greatest value for asset management by transferring operational risk to Ingersoll Rand. We are responsible for scheduled air compressor maintenance, as well as using predictive analytics and analytical tools to help prevent unexpected interruptions in your production.

PackageCARE gives you preferred parts pricing and remote monitoring with predictable, on-time planned air compressor maintenance services, plus:

- **Risk Transfer:** Ingersoll Rand assumes all operational risks with fixed costs throughout the agreement, ensuring you're fully covered without surprises.
- **Comprehensive Coverage:** PackageCARE extends beyond typical warranty limitations, covering wear and tear, corrosion, and more, without the fine print.
- **Mutual Commitment:** Unlike extended warranties, PackageCARE promises dedicated service without the threat of contract termination.
- **Equipment Flexibility:** PackageCARE allows you to cover a wide range of equipment, regardless of age, with customisable coverage length.

Enhanced Benefits

- **Air Quality Testing**
- **Remote Monitoring** with System Performance Manager - Monitor **includes:**
  - Predictive and Prescriptive Insights for Risk, Maintenance and Energy Savings so you are ahead of the curve
  - 24/7 Real-time Remote System Visibility with KPIs and Trends
  - System Historical Data Trending and Statistics (accessed through the portal)
  - Identifies Potential Energy Saving Opportunities
  - System Health Dashboard with Calculated Capacity
